Demartek Release New 16Gb Fibre Channel Deployment Guide

Demartek announces the latest in a series of deployment guides - the Demartek 16Gb Fibre Channel Deployment Guide. This guide is designed for managers and technical professionals within IT departments who are exploring the benefits of deploying, or upgrading to, 16Gb Fibre Channel technology or who are looking for actual deployment examples of 16Gb Fibre Channel solutions. This guide is intended to be used as a reference and is divided into sections including marketplace data, technology areas (HBAs, switches, storage systems, etc.), and deployment guidance for virtual servers, including VMware vSphere and Microsoft Hyper-V. Check out the latest Fibre Channel Deployment Guide **here**.

Demartek Speaking Events

Demartek Speaking at Flash Memory Summit in August 2014

Flash memory is a key technology enabling new designs for many products in the consumer, computer and enterprise markets. The Flash Memory Summit is the only place where you will hear the people making these products happen. Network with companies and people that will create the next generation of hardware and software and be sure to attend Dennis Martin's session.

- August 5, 4:25pm-5:45pm: **Real-World Performance of Flash-Based Storage Systems** (Session 104-C)
