[Demartek Updates Identity Theft Prevention Tips and Commentary Report](#)

As technology continues to change and we begin to use it for increasingly numerous uses, identity theft potential also becomes more prevalent. The continued desire for convenience in our day-to-day lives means we must remember that the security of our private information should also remain a top priority. In the latest version of our

Demartek Lab Notes –February 2015

ID Theft report we have updated old methods of identity theft practices as well as added new ways in which thieves are making efforts to compromise our personal data and steal our identities.

Top Ten Demartek Pages and Reports

We list the top ten most popular pages and reports for the last four weeks, updating every Monday morning. Here's how it looked on our website on February 16th:

1. [Demartek Storage Networking Interface Comparison](#)
2. [Demartek Presents Robocopy at March 2011 RMWTUG Meeting](#)
3. [Demartek News and Reports](#)
4. [Demartek Monthly Browser Usage Statistics](#)
5. [Demartek Evaluation of HP 20GbE Adapters and Cisco 40GbE Adapters](#)
6. [Demartek Comments on IDF2014 and NVMe, Thunderbolt 2, USB 3.1 and PCIe 4.0](#)
7. [Demartek Evaluation of HP OneView Management Software](#)
8. [Demartek - About Us](#)
9. [Demartek Comments on the 2015 International CES](#)
10. [Demartek Lab Validation and Testing](#)

Be sure to check back every Monday to see which reports have made the Top Ten List. The [current top ten list](#) can also be viewed on the Demartek website.

Word from the President

We've been busy with several public and private testing projects involving a number of technologies. We've been testing Hadoop and other interesting newer clustered server applications, as well as more traditional enterprise datacenter workloads. We don't share our private testing results on our public website, but we are looking forward to sharing the results that we can share with you.

Dennis Martin, President, Demartek
