Word from the President

We work on a wide variety of public and private projects, involving several new technologies, as well as existing technologies. We're hard at work on some of those projects now. We continue to expand the types of workloads we run and the environments that we use.

Did you know that in addition to the reports we produce, we also produce videos, infographics and much more? Give me a call and let's discuss what we can do for you.

Dennis Martin
Demartek President
