NUTANIX

INTELLIGENT, HYPER-CONVERGED INFRASTRUCTURE

THAT SIMPLIFIES THE END-USER EXPERIENCE

DATA LOCALITY & SCALABILITY

Unlimited cluster size and localized data storage

NUTANIX HCI

Unlimited cluster size. Data on the same localized node as the VM

OTHER HCI PROVIDERS

Finite maximum cluster size. Data may not be stored on the same localized node as the VM

ONE-CLICK MANAGEMENT

One-click firmware and OS upgrades provides simplicity of management.

INTUITIVE USER INTERFACE SAVES TIME ON SETUP & OPERATION

CONTINUOUS INNOVATION

Rich machine intelligence enables infrastructure to adapt to application needs.

MULTIPLE HYPERVISOR SUPPORT

Simplified Multiple hypervisors with VM mobility

NUTANIX HCI

VM mobility across hypervisors. Nutanix AHV saves hypervisor license costs for storage nodes

OTHER GUYS

No VM mobility across hypervisors. Hypervisor licenses needed for storage nodes

Testing and results provided by: **Demartek**
