[Demartek Evaluates Simplifying NAS Deployment Brocade VCS](#)

Rapidly changing business requirements are served by responsive automation on the modern NAS device, but without equally responsive network automation and operational simplicity, the storage system advantages may not be realized to their full capacity. Read our latest report and see how Brocade helps accomplish this task.

Demartek Lab Notes – December 2016

[Demartek Evaluation: HPE StoreFabric Gen 6 Fibre Channel Server and Storage Solution](#)

Large enterprises choose two-socket servers to power their most demanding workloads, including big data analytics and dense virtualization deployments. The latest HPE DL380 Gen9 two-socket server leverages the current Intel® Xeon® E5 v4 processor family to deliver the highest level of performance.

[Demartek Introduces New Faces](#)

Jenn Emmerich

Jenn joined Demartek as Project Manager in 2016. In her role as project manager, Jenn helps define project objectives, creates schedules, coordinates resources, and oversees projects until their successful completion. Jenn also took on the role of Quality Manager and will work to achieve and maintain Demartek's ISO 17025:2005 Accreditation.

Stephen Agee

Stephen joined Demartek in late 2016. He is currently pursuing a degree in Electrical Engineering with a minor in Computer Science at Colorado School of Mines. He is excited about the opportunity to work with Demartek as a Junior Analyst. This role allows him to learn more about computer networking and data storage while testing the latest technology.

Demartek Lab Notes – December 2016

Top Ten

We list the top ten most popular pages and reports for the last four weeks, updating every Monday morning. Here's how it looked on demartek.com on December 12th.

1. [Demartek Presents Robocopy at March 2011 RMWTUG Meeting](#)
2. [Demartek Storage Networking Interface Comparison](#)
3. [HPE StoreFabric Gen 6 FC Server and Storage Solution](#)
4. [Evaluation of HP ProLiant Gen9 vs Gen8 and G7 Server Blades](#)
5. [Demartek Lab Validation and Testing](#)
6. [Demartek Evaluation of Gen 6 FC Products from Emulex and Brocade](#)
7. [Improving SQL Server Database Performance with HPE MSA 2040 Flash Upgrades](#)
8. [Demartek Evaluation: HPE 3PAR Persistent Checksum](#)
9. [Accelerating Database Workloads using HPE MSA Storage with Built-in Flash](#)
10. [Demartek Evaluation of the Chelsio T580-CR 40GbE iSCSI Offload Adapter](#)

Be sure to check back every Monday to see which reports have made the Top Ten List. The [current top ten list](#) can also be viewed on the Demartek website.

Top Ten

From all of us at Demartek, we wish you a Merry Christmas, happy holidays, and all the very best for this season. We hope that you get away from the normal work schedule and spend time with family and friends, reflecting on the reason for this season. Demartek will be closed for the holidays December 23, 2016 through January 2, 2017.

As we test various servers, networking and storage systems, we discover what these systems can do and then we publish the results, or the supporting evidence. In the same way, there is good supporting evidence for the reasons that we celebrate Christmas, or the birth of Christ. I would be happy to share this evidence with you.

Thank you for reading our monthly newsletter and your continued support and interest in Demartek.
