### [Demartek Evaluates Seagate TurboBoost Enhanced Cache HDDs](#)

Seagate's Enterprise Performance 15K HDD v6 Advanced Format configuration supports enhanced caching to improve random reads and writes. The performance improvements require no changes from the system side and increase random write small block transfers and decrease the response times on localized random reads. Read about this and much more in our latest evaluation!

## Top Ten

---

We list the top ten most popular pages and reports for the last four weeks, updating every Monday morning. Here's how it looked on [demartek.com](http://demartek.com) on May 15th.

1. [Demartek Presents Robocopy at March 2011 RMWTUG Meeting](#)
2. [Demartek Storage Networking Interface Comparison](#)
3. [Seagate TurboBoost Enhanced Cache HDDs and Dell EMC PowerEdge R830](#)
4. [Accelerating Database Workloads Using HPE MSA Storage with Built-In Flash](#)
5. [Demartek - About Us](#)
6. [HPE StoreFabric Gen 6 FC Server and Storage Solution](#)
7. [Improving SQL Server Database Performance with HPE MSA 2040 Flash Upgrades](#)
8. [Demartek RoCE Deployment Guide](#)
9. [Demartek Presenting at Flash Memory Summit - August 2017](#)
10. [Demartek Comments on 16GFC and Backward Compatibility](#)

Be sure to check back every Monday to see which reports have made the Top Ten List. The [current top ten list](#) can also be viewed on the Demartek website.

## Word from the President

---

Technology enthusiasts like us look forward to testing the latest technologies. However, there is a negative side and that is the latest malware. You've probably heard about a rather large ransomware event that took place across the Internet recently. One of the other technology best practices is to keep current with updates to operating systems and applications on all platforms and devices - no platform or operating system is immune to security flaws. One of my favorite resources for this type of information is the [United States Computer Emergency Readiness Team](#) (US-CERT).

We invite you to attend the Flash Memory Summit in August, where we will discuss some interesting new technology and how it can be used in customer environments. Check our [Demartek Flash Memory Page](#) for details.

Dennis Martin  
Demartek President
